

# KIDS for the BAY

## WATERSHED ACTION PROGRAM

### WATERSHED LESSONS

Celebrating 30 Years!

**"My students are much more aware of litter and how it affects the bay. They also have an increased concern with regard to plastic and how it hurts our watershed. This program has given me great lesson ideas."**

Charlene Pugh, Fourth Grade Teacher, Longwood Elementary School, Hayward

# KIDS for the BAY

## WATERSHED ACTION PROGRAM

### ACTION PROJECTS AND FIELD TRIPS

**KIDS for  
the BAY**

Celebrating 30 Years!

**"I had no idea all of these amazing creatures live just beneath the surface of the creek. I will never look at a creek the same again."**

**Roxana, Fourth Grade Student, Longwood Elementary School, Hayward**

**The classes at New Highland Academy in Oakland were very excited to see and learn about plankton at Crab Cove. Some students were able to find up to four different species of plankton!**

**"I can see how the jalapenos and garlic make pests go away. They smell so strong!"**

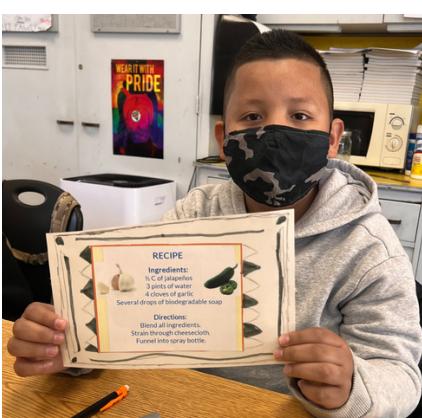

**Adeline, Fourth Grade Student, Longwood Elementary School, Hayward**

**"I'm excited to share my recipe card with my mom because she has a garden. Maybe we can make natural pesticides together!"**

**Ivan, Fourth Grade Student, Longwood Elementary School, Hayward**

**"Teachers are all ages. You can teach people at home who might not know about pesticides."**

**Kameryn Sanchez, Third/Fourth Grade Teacher, New Highland Academy, Oakland**
